73-4030

TO: Mr. Colby

SUBJECT:

REMARKS:

Bill:

The attached paper was prepared by Don Steinger over the weekend and is intended as background which hopefully will be useful to you as you think about how you would like to see the NRO business handled. We are not at this time making a lot of firm recommendations as to the precise course of action you should follow since we realize there are many people who have views on the subject you may have to accommodate to some things that are not totally to your liking. If you feel it would save you time Don and I will be happy to brief you verbally but I do believe it is necessary that you know about the various subjects raised here. I did not bother to put it in final form since I thought it was important that you receive it now.
